

## **COMPUTERS**

Computer classes begin formally at the Junior Elementary level with 45 minutes to 1 hour of personalized computer time per week. Additional time may be arranged for research or projects. Each student will be made aware of computer protocol, internet safety, and general expectations.

They will be expected to follow these expectations exercising good judgement and safety at all times. Improper or unsafe behaviours will be addressed and discussed - repeated unacceptable or unsafe behaviours may result in any/all of the following: parental meetings, exclusion from computer class for a period of time, reassignment to another computer class.
