

CURRICULUM PHILOSOPHY

Overall Statement

Students at MLCP participate in daily French, weekly physical education, music and movement, group singing and arts and crafts activities. The elementary students also participate in weekly home economics, civics, computer, art, music classes and health education classes. Senior Elementary students, as part of the music curriculum, are also exposed to the use of band instruments.

Homework is not promoted at the *CASA* level. Children participate in a full day's worth of work and, in most cases, there is no need for academics to continue at home. Interaction with parents on a more academic level, could involve storytime, mazes, word searches and matching organizational exercises. Students who may wish to work at home are welcome to discuss this with the classroom teachers and an instituted and individualized programme can be arranged.
