

FIELD TRIPS

Field trips are considered part of the annual curriculum. Prior to the trip information/permission slips will be forwarded to the parents. These must be signed and returned with appropriate payment before the child is permitted to participate in the trip. Should a parent decide that a child may not participate in a scheduled trip, the family must make other arrangements for the day in question, as there will be no one available to offer care in the classroom for the student.

Our Elementary extended trip is held in June each year. All Elementary children are expected to attend as the trip does make up part of the annual curriculum. The younger students attend a variety of camps. Trips range between \$300 and \$500 per student. Information is forwarded in Term II.

Please note the following excerpt from the MLCP Registration Form : "During attendance at the school, I personally and on behalf of my son/daughter/ward, hereby agree to release and forever discharge and indemnify the Montessori Learning Centre, its employees and representatives from any and all claimers, demands or actions including claims for personal injury or sickness, while at school or out on field trips/tournaments/competitions."
