

WAGE ENHANCEMENT POLICY

Wage Enhancement is a Ministry mandated funding agreement to assist with the difference in allotments between publicly funded education and private licenced centres offering service to students less than four years of age.

MLCP commits to offering this salary enhancement as long as the Ministry is able to fund the opportunity. Staff will sign agreements recognizing their receipt of additional monies and their understanding that the amounts can only be honoured as they are received by MLCP.

MLCP commits to following the regulations and guidelines set forth by the Ministry and the changes which may occur as they arise. Wage Enhancement amounts will be included on each pay cheque as instructed and separate files kept for the recording and documentation of monies received and paid.
